HOW TO READ THE ODDS

Odds are the measure of how much you can win per \$100 wager. The - and + next to the odds are used to show the potential payout and whether the wager is more or less likely to win.

While the “-” wagers have a higher chance of paying out and the “+” wagers a lower chance, this is implied probability and does not guarantee a win or loss.

The “-” odds show how much you’d need to bet to win \$100. For example, if you see the odds are -120, that means if you wager \$120, your potential profit is \$100 (plus your original stake).

MONEYLINE

WAGER

\$100

-120

The “+” odds show the amount of money you’d win if you bet \$100. For example, if you see the odds are +120, that means if you wager \$100, your potential profit is \$120.

Washington Commanders

MONEYLINE

+120

The “+” odds show the amount of money you’d win if you bet \$100. For example, if you see the odds are +120, that means if you wager \$100, your potential profit is \$120.

FYI: Don’t confuse the odds with the point spread. The point spread is a bet type that has two types of “+” and “-”. The “+” and “-” with single or double digits are displayed ABOVE the odds and refer to the points scored in a game. The odds are below the spread and have triple digits or higher.

THE BET TYPES

SPREAD

When you bet the spread, you’re betting on a team’s margin of victory or defeat. So, if you bet on the favorite (indicated by the “-”), they have to win by more than the number shown. If you bet on the underdog (“+”), they have to win outright or lose by less than the number shown.

► Example

MONEYLINE

A moneyline is a bet on which team will win a game outright.

Example: The Cowboys are -190 to beat the Commanders, while the Commanders are +160 to win. If you think the Cowboys will win the game, you would have to wager \$190 to potentially win \$100 (or wager \$19 to win \$10). Conversely, if you think the underdog, Commanders, will win, you would wager \$100 to potentially win \$160 (or wager \$10 to win \$16).

	SPREAD	MONEYLINE	TOTAL
Dallas Cowboys	-4 -110	-190	O 48 -110
Washington Commanders	+4 -110	+160	U 48 -110

TOTAL

A total, or over/under, is a bet on the total amount of points scored in a game by both teams combined. A bet on the over means that both teams combined must score more than the number shown, whereas a bet on the under means that they must score less than the number shown.

Example: The Cowboys vs Commanders total is 48 points. If you think the total score of the game will be more than 48, you would bet the over and would have to wager \$110 to potentially win \$100.

Example: The Cowboys vs Commanders total is 48 points. If you think the total score of the game will be more than 48, you would bet the over and would have to wager \$110 to potentially win \$100.

	SPREAD	MONEY	TOTAL
Dallas Cowboys	<div>-4</div> <div>-110</div>	<div>-190</div>	<div>O 48</div> <div>-110</div>
Washington Commanders	<div>+4</div> <div>-110</div>	<div>+160</div>	<div>U 48</div> <div>-110</div>

FYI: If the teams combine for the indicated total exactly, then the wager is a push (or tie), meaning all bets are voided and you get your money back.

PROP (OR PROPOSITION):

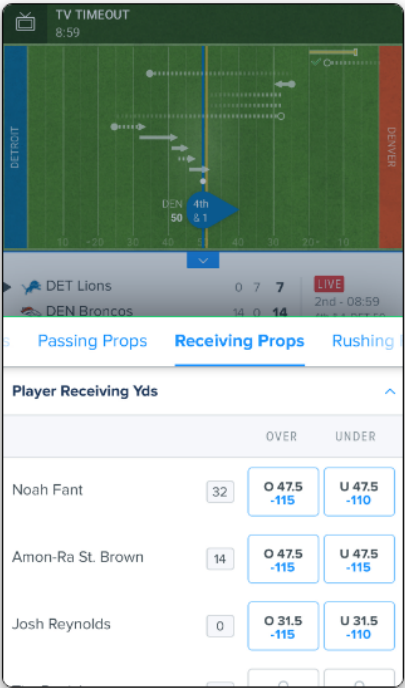

A prop is a bet that isn't tied to the outcome of a game. FanDuel offers both player props and game props.

Player props are tied to an individual player's performance in an event.

Example: Player totals: A set number for points/assists/yards/etc. and you can bet the over or under, e.g. "Noah Fant will have over 48 receiving yards."

Game props are tied to another specific aspect of the game (other than player performance).

Example: Will the game go to overtime? Will the team that scores first win? Is the total score going to be an odd or even number?

PARLAY

A parlay is a bet that combines two or more selections into one larger bet. For a parlay to be successful, each of the individual legs (or selections) must win.

A parlay is a bet that combines two or more selections into one larger bet. For a parlay to be successful, each of the individual legs (or selections) must win.

► Example

SAME GAME PARLAY & SGP+

A Same Game Parlay is a special type of parlay that combines two or more selections from a single game or correlated games, matches, or events.

FanDuel also offers a SGP+, which lets you add more selections from other games to your Same Game Parlay and Live SGP/SGP+ for all NFL games so you can get in the action even after the game has started.

Example: Think your favorite team is going to dominate their next matchup? Bet on them to win by more than 4 points and the total to go over - all in one parlay. If both of your parlay legs hit, you'll win more than if you placed each bet separately. But if you miss one leg, you'll lose the parlay.

LIVE BETS OR IN-GAME BETS

If you're late to a game, you can still get in on the action. Live bets are any bets placed on a live game after it has already started. FanDuel offers odds throughout the game that continuously update as the game progresses.

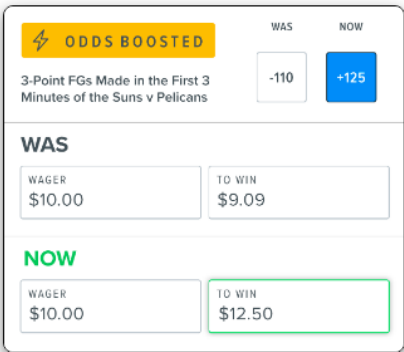

FYI: Odds are subject to change at any time and often change frequently in real time. Toggle on the “Always accept odds movement”, located on the betslip, to submit bets without confirming changes to odds for quick bet placement. Toggle off to confirm odds changes before bet placement.

Bet settlement is not always immediate and many of our live markets settle after the game is over.

ODDS BOOSTS

Odds Boosts are available on an impromptu basis. They offer increased odds on certain bet selections for a higher potential payout.

Example: If the odds were -110 and you wagered \$10, you would potentially win a little over \$9. With the odds boosted to +125, a \$10 wager could win you \$12.50.

FUTURES

Futures are bets on future events that generally won't occur for weeks or months. These events usually refer to significant league championships, but can also refer to divisional or conference outcomes or be specific to a player.

Example: Futures can be wagers on competition or tournament outright (e.g. the Denver Broncos to win the Super Bowl, Novak Djokovic to win Wimbledon, the Los Angeles Lakers to win the Pacific Division, etc.). They can also refer to regular season win totals (e.g. Brooklyn Nets O/U 57.5 Wins), regular season points (e.g. Seattle Kraken O/U 90.5 Points) or player prop futures (e.g. Aaron Rodgers O/U 42.5 Passing TDs for the season).

ROUND ROBIN

A round robin is an easy way to place multiple parlays at once. When you place a round robin, you're placing individual bets on every possible parlay combination within the selected wagers. You don't have to win all the parlays to win the round robin.

ROUND ROBIN

A round robin is an easy way to place multiple parlays at once. When you place a round robin, you're placing individual bets on every possible parlay combination within the selected wagers. You don't have to win all the parlays to win the round robin.

To place a round robin, just add 3 or more selections to your betslip and go to the Round Robin tab. Here, you'll see the bets broken down By 2's, By 3's, and so on. These indicate the number of selections in each individual parlay you're placing.

Example: If you're betting on teams A, B, and C to win outright, you'll have two round robin options available. Your By 2's option includes all possible 2-team parlays for these three wagers (A+B, B+C, and A+C). And your By 3's option includes all possible 3-team parlays on these 3 wagers (A+B+C). If you bet \$30 on the By 2's option, that money will be split evenly among the 2-team parlays (\$10 on each of the 3 wagers).

You can add up to 24 legs to your round robin. The more legs you add, the more combinations you can create.

Reminder: Selections with the same game (i.e. side/total/prop) cannot be combined.

Example: If you are betting on six teams to win outright, you'll have the option to bet By 2's, By 3's, By 4's, By 5's, or a traditional 6-leg parlay.

By 2's = 15 possible 2-leg parlays

By 3's = 20 possible 3-leg parlays

By 4's = 15 possible 4-leg parlays

By 5's = 6 possible 5-leg parlays

TEASER

A teaser lets you add or subtract points from a spread or total. A minimum of two teams must be selected for a valid teaser and all selections must cover the spread for the teaser to win. Teaser point values vary by sport.

Example: If you were to subtract +3.5 points from your spreads, you would have longer odds (i.e. a harder chance to win) but a potentially higher payout. If you added points to your spreads, such as +8.5, you would have shorter odds (i.e. a better chance at winning) but a lower potential payout.

UNDERSTANDING REWARDS AND PROMOTIONS

TYPES OF REWARDS

What is a "No Sweat" promotion?

If your bet wins, you keep the money. If your bet is settled as a loss, you will be refunded up to a certain amount in the promotion as site credit.

The credit will appear in your account within 72 hours. You then have 7 days in which to use your bonus bet.

What is a bonus?

A **bonus** is an extra payment in bonus bets that you get for placing a certain wager, based on a specified statistics/occurrences within the game. For example, a promotion on an MLB game may offer a "\$5 bonus in bonus bets for each home run hit in the game." This bonus may be offered regardless of your upfront wager winning or losing, or may be tied to you winning or losing your bet (see promotion details for more info).

The credit will appear in your account within 72 hours. You then have 7 days in which to use your bonus bet.

What are bonus bets?

Bonus Bets are bonuses that can be found in your account page or betslip. Your Bonus Bets will either be all-purpose or for a specific sport, game, or bet type.

After your bet settles (and if it wins), you'll get to pocket all of the winnings but the initial Bonus Bet portion of your wager will not be returned to your wallet.

For example: You could use a \$25 NFL Bonus Bet to place a \$25 bet on the Patriots to cover the spread. If the bet wins, the \$22.73 winnings will be added to your wallet, but the Bonus Bet stake would not be included in your winnings.

Your Bonus Bets will expire in 7 days, unless stated otherwise.

What is a Profit Boost?

Profit Boosts are rewards that allow you to boost your winnings on a bet. If you have a Profit Boost, you will find it in your account or on your betslip when you're placing a bet that meets the requirements for your boost.

A Profit Boost can automatically be added to your account by FanDuel or you can claim one by opting into a promotion. Once you've completed the promo, your Profit Boost will appear in your account.

Each Profit Boost will say what it can be used for. Either an all-purpose boost or it could be exclusively for a specific sport, game or bet type (such as a Same Game Parlay).

Profit Boosts expire so please visit your account page for more details on each reward's expiration date Your Profit Boost cannot be combined with other rewards.

What is a Boost Builder?

Boost Builders are rewards that allow you to boost your winnings on parlays – the more legs you add, the bigger the Profit Boost!

If you have a Boost Builder available, it will appear on your homepage to claim. Once claimed, it will appear in your account and on your bet slip when making a qualifying wager.

Boost Builders expire so please check your account page for the details on when each reward will run out.

What is site credit?

Site credit is also known as bonus funds. If a customer wagers with bonus funds and the wager loses, the site credit is not returned.

If a customer wagers with bonus funds and the wager wins, your stake, as well as your winnings, will be returned to you and both can be withdrawn. If a customer wagers with cash on a promotion and receives bonus funds as part of that promotion, that site credit cannot be withdrawn.

For example, a customer places a \$5 cash wager after opting into the following promotion: "Place a Same Game Parlay to get a refund in site credit if your bet loses. Max refund \$10." If the qualifying bet loses, the customer will receive \$5 in site credit as part of the promotion. That \$5 is now site credit which can be used to place other bets. It cannot be withdrawn. Only your winnings can be withdrawn.

The credit will appear in your account within 72 hours. You then have 7 days in which to use your site credit.

If you have bonus funds in your account, you can toggle between cash wagers and using bonus within the bet slip.

TYPES OF PROMOTIONS

What is an "Insurance" promotion?

If your bet is settled as a loss but a certain result happens (as specified in the promotion), you will be refunded the amount within the promotion as a bonus bet. For example, if you place a parlay and exactly 1 leg loses, you'd get refunded in a bonus bet.

The credit will appear in your account within 72 hours. You then have 7 days in which to use your bonus bet.

What is a "Bet & Get" promotion?

A **Bet & Get** promo means you will be awarded a bonus in bonus bets for placing a certain type of wager (as specified in the promotion). You will be awarded this bonus regardless of whether your bet wins or loses.

The credit will appear in your account within 72 hours. You then have 7 days in which to use your bonus bet.

Popular sports bets

Point Spread - The most popular sports bets are based on the point spread, sometimes just called the "Spread." The point spread represents the margin of points in which the favored team must win to "cover the spread." Bets on the point spread are usually offered at 11-to-10 odds. Here's an example:

	SPREAD	MONEY	TOTAL
Dallas Cowboys	<div>-4-110</div>	<div>-190</div>	<div>O 48-110</div>
Washington Commanders	<div>+4-110</div>	<div>+160</div>	<div>U 48-110</div>

If you bet on the Cowboys -4 option, the Cowboys would have to win by more than 4 points for your bet to cover. If you bet on the Commanders +4 option, Washington would have to either win outright, or lose by less than 4. If the Cowboys beat the Commanders by exactly 4, then it's a push, meaning all stakes are refunded.

With odds at -110, you would bet \$11 to win \$10 for a total payout of \$21, or \$110 to win \$100 for a total payout of \$210.

Moneyline - A moneyline (or money line) is a bet on which team will win a game outright. Example: The Cowboys are -190 to beat the Commanders, while the Commanders are +160 to win. If you think the Cowboys will win the game, you would have to wager \$190 to potentially win \$100 (or wager \$19 to win \$10). Conversely, if you think the underdog Commanders will win, you would wager \$100 to potentially win \$160 (or wager \$10 to win \$16).

Under – The player bets that the total points scored by two teams will be less than a certain figure.

Same Game Parlay and SGP+ - Same game parlays are a type of parlay that combines two or more selections from a single game or correlated games, matches, or events. With a same game parlay, you will have the potential to score a larger payout than if you placed each bet individually.

Here's a video with more:

Round Robin - A series of parlays. For example, a 3-team round robin consists of four total bets- three 2 team parlays (A + B, A + C and B + C) and one 3-team parlay (A + B + C).

Money Line - The money line represents the odds of a team winning the game outright without the use of the point spread. The money line is expressed as a 3-digit number. Point Spread - The most popular sports bets are based on the point spread, sometimes just called the "Spread." The point spread represents the margin of points in which the favored team must win to "cover the spread." Bets on the point spread are usually offered at 11-to-10 odds. FanDuel deposit troubleshooting video

Why was my deposit declined?

FanDuel wants to make sure you can easily get money into your account and get right into the action.

But sometimes deposits don't go as planned and we know that is frustrating. Here are some of the main reasons FanDuel deposits may be declined and how you can fix them:

1. Card information

Just like online shopping, double check to make sure the name, card number, expiration date, security code, and state/zip code all match the account information associated with your card.

2. Bank restrictions

While most major banks allow online wagering, the following banks may decline transactions with online wagering companies:

- Capital One
- Comerica Bank
- Goldman Sachs
- Some Citibank Cards

Banks occasionally change their terms and conditions without notice so we cannot guarantee that this list includes all banks with this policy.

Your bank might have also temporarily restricted online transactions. There may also be limits for deposits from the bank on your account. You will need to contact your bank directly to identify if this is happening and determine if these online restrictions can be

Your bank might have also temporarily restricted online transactions. There may also be limits for deposits from the bank on your account. You will need to contact your bank directly to identify if this is happening and determine if these online restrictions can be lifted.

Finally, updated FanDuel policies prohibit deposits and withdrawals from business accounts. Company funds connected to a business account are not allowed to be used on FanDuel. You will need to select a personal banking account or other form of payment.

3. Gift card and pre-paid card restrictions

If you're using a gift/pre-paid card, some banks or types of gift cards may not allow payments to sites like FanDuel.

Game On cards are not allowed in the following states: Connecticut, Mohegan Sun Reservation, Illinois, Indiana, Massachusetts, North Carolina, Tennessee, Vermont, and Washington D.C.

Play+ pre-paid cards are not allowed in Connecticut, Mohegan Sun Reservation, and Iowa.

Here are some other suggestions:

- Make sure to register the gift card as instructed on the back of the card.
- Deposit slightly less than the balance on the card.
- If depositing from Canada, be sure to take the exchange rate into account.

4. PayPal and Venmo restrictions

PayPal and Venmo are not available to use in Connecticut (Mohegan Reservation) and Tennessee.

5. PayNearMe restrictions

PayNearMe is not available to use in Ohio.

Credit Card deposit restrictions

FanDuel follows all state and local regulations for any restrictions on depositing and withdrawals.

Where does this apply?

- Connecticut: Sportsbook and Mohegan Sun Casino
- Massachusetts: Sportsbook
- Massachusetts: FanDuel Racing
- Tennessee: Sportsbook
- Vermont: Sportsbook

State rules prevent betting of funds deposited from credit cards while you use the products in the states above.

That means that even if you deposited by credit card **elsewhere** in the country, you'll see those funds as "Unavailable in your state" when you are inside the states above.

Iowa: You cannot use funds deposited via credit cards.

New York: \$2,500 per year limit on credit card deposits per card.

What if I travel out of state?

If you travel out of one of the restricted states and make a credit card deposit before returning, you will see a banner explaining the state restriction.

You'll see a new balance that says "Unavailable in your state." That is the amount that was deposited via credit card out of state.

But your money is still safe and accounted for!

Can I deposit with one method and withdraw from FanDuel with a different one?

You can connect any of your eligible deposit methods, but you'll have to use the same method or account for withdrawal first.

Here's an example: If you have only set up online banking, you'll have to use that connection to take out your funds.

If you want more options, you can deposit and withdraw funds across any connected accounts. Deposit with your debit card and withdraw with Venmo, for example. **Connect your accounts and you're good to go!**

What is a "non-playable balance"?

You are able to withdraw any and all of your winnings. This is called a "shared wallet" across all FanDuel platforms and products.

However, you may see a "playable balance" figure. This includes deposits, bonuses, and winnings that may be linked to certain products.

For example, you can use Sportsbook, Casino, and Racing deposits interchangeably among each other. That's a shared wallet of playable funds you deposited.

Fantasy and Faceoff use a shared wallet for deposits on those platforms. You cannot use those deposited funds on other products and they will show up as "non-playable balances."

Again, your winnings are yours and can be used across all of FanDuel!

How can I refund or cancel a deposit?

If for whatever reason you want to get your deposit back, we make it easy and simple. You can receive any unused deposit money in your account.

And you can do this with any card deposits, online banking connections, Venmo, or PayPal.

Here are some quick differences between the two.

Refund: A refund on your deposit would be getting back any amount of the unused deposit you've made on FanDuel.

Cancellation: This is a request to fully stop the deposit of funds into your FanDuel account.

However, you may see a "playable balance" figure. This includes deposits, bonuses, and winnings that may be linked to certain products. For example, you can use Sportsbook, Casino, and Racing deposits interchangeably.

If you need help with how to withdraw your winnings or refund your deposits, you can [learn more here](#).

Trying to withdraw a bonus:

[Bonuses, boosts, or other promotions](#) must be used on bets or contest entries and cannot be withdrawn or taken out.

For example, if you are given a \$5 Bonus Bet, that is money that can only be used on wagers according to the terms and conditions.

However, any **winnings** you get from bonuses or boosts are all yours and can be withdrawn and taken out.

Some of the bonuses come with what's called a "[playthrough requirement](#)."

These funds can only be used to place wagers on the FanDuel product on which they were earned. For example, Sportsbook site credit can only be used on Sportsbook while Casino site credit can only be used on FanDuel Casino or Mohegan Sun Casino as applicable. Bank, Venmo, PayPal or other account problems:

It's always easiest to take money out the same way you put it in.

You're only able to withdraw funds to accounts you've used to deposit.

Let's say you **deposited** with your bank account, but want to **withdraw** with PayPal.

In this case, you'd need to make a deposit with PayPal first in order to safely authorize future withdrawals.

Finally, updated FanDuel policies prohibit deposits and withdrawals from business accounts. Company funds connected to a business account are not allowed to be used on FanDuel. You will need to select a personal banking account or other form of payment.

Trying to withdraw deposited funds that have not been used:

If you deposit on FanDuel, you can access your unused deposits for refund or to return to your preferred payment method. While you are withdrawing the funds, it's actually a refund of your unspent and unused deposit. Either way, it's your money.

You can learn more about that [easy process](#) here.

Incorrect address information when withdrawing with checks:

We are only able to send checks to the verified address linked to your account.

You can update your address in your Account Settings and navigate to "Personal Details." You will enter your verified address for your mailed check during your withdrawal.

How long do withdrawals take?

You can withdraw your winnings any time through a number of methods.

With online banking, many institutions use Real Time Payments, a system that could help speed up withdrawals to less than 24 hours. You can learn more about [those banks](#) here.

Note: If you are withdrawing from your account **for the first time**, it may take up to 48 hours for a full review--no matter the method.

Large transactions may take additional processing time, but often, withdrawals can be instant. Here's a timeline of what to expect depending on your method:

- Debit card: up to 24 hours
- PayPal/Venmo: up to 24 hours
- Online Banking: 3-5 business days
- FanDuel Prepaid Play+: up to 24 hours
- Cash at Counter withdrawals are typically processed within an hour, but larger withdrawals may take up to 48 hours. You will be notified by email when your cash is ready for pick up.

How can I track my withdrawal?

Once you've initiated your withdrawal, FanDuel updates the status of your money every step of the way. It's like a "pizza tracker" for your money!

You'll see each step of the process, including time stamps for when the request was received, approved, and completed. Here's an example:

You can also **cancel withdrawals** from within the tracker if they are still pending.

You can also receive notifications about your withdrawal - in real time:

Simply turn on push notifications on your phone in your settings. The Sportsbook app notifications will look similar to this:

I won my bet and my money hasn't shown up yet

FanDuel and all other sports betting providers rely on official statistics and results from the leagues like the NFL or NBA. Horse racing is a little different depending on race course tracks and governing bodies, and it can include post-race inspection, video replay, and much more.

Because of this, it can take a little longer for any winnings to end up in your account following a race compared to other sports. This is called "bet settlement."

We must wait on any official results in case there are no disqualifications or issues with the confirmed outcome of the race.

How do I withdraw my money?

You can **withdraw your funds any time** through Online Banking, Debit Card, Venmo, PayPal, FanDuel Prepaid Play+, Check, and Cash at Counter. You can view all your options on the "Withdraw" page.

Please note: Some locations may limit which withdrawal options are available.

In order to withdraw using Debit Card, Venmo, PayPal, and FanDuel Prepaid Play+, you must first make a deposit using that method. You can use any confirmed deposit method.

Select on the **profile icon** if you are on your computer or the **Account icon** if using the app.

Flutter is listed on the London Stock Exchange and traded as part of the FTSE 100. We're working towards a listing date of 29 January 2024 on the New York Stock Exchange (NYSE). Flutter consists of four divisions that operate across the world. Together, we're Changing the Game for millions of customers worldwide.

In the US, the value of the sports betting and iGaming market is estimated to reach US\$40bn by 2030 and in markets across the rest of the world we see already see a further US\$320bn of future potential value.

FANDUEL IS FLUTTER'S LARGEST BRAND AND THE US MARKET LEADER

Since being acquired by Flutter in 2018, FanDuel has leveraged its daily fantasy sports business to consolidate a clear #1 position in the online sportsbook market. The business also has a growing share of iGaming with 26% of the market in Q4, up 4ppt from the prior year.

The FanDuel Advantage drives our flywheel, creating a larger and more profitable business

FanDuel achieved its market-leading position through its competitive differentiators, what we call the **FanDuel Advantage**.

ACQUIRE

- In Q4 '23, US average monthly players had grown to over 4 million.
- FanDuel acquires customers much more efficiently than other sportsbooks in the market.

RETAIN

- We were first to market with the Same Game Parlay, an industry-changing feature, and continue to deliver improved flexibility and choice for customers through product and feature innovations.
- FanDuel has premier partnerships with nearly every major sports league in the U.S., including the NFL, NBA, MLB, WNBA and NHL.

GROW

- The Flutter Edge gives FanDuel a structural margin advantage as our in-house risk and trading team offers more accurate odds across more markets for customers.
- We retain customers for longer due to our superior product, and generate 43% more margin per \$1 handle compared to the rest of the market.

By 2030, the total market for sports betting, daily fantasy sports, and iGaming in the U.S. could reach \$40Bn.*

FanDuel will be the first sportsbook to achieve profitability for a full year. Leveraging both the FanDuel Advantage and the Flutter Edge, FanDuel is in an excellent position to continue to win in the US market.

Flutter changed the sports betting landscape with the Same Game Parlay, and we continue to disrupt the sector through superior customer experience and gameplay.

With technology at our core, Flutter is uniquely positioned to bring innovations to market. Through our in-house capabilities and global resources, we can quickly respond to customers' needs and provide them with the most enjoyable experience with superior flexibility and choice.

WE ARE COMMITTED TO RESPONSIBLE GAMEPLAY GLOBALLY

Forward-Looking Statements

This presentation contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect our current expectations as to future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. In some cases, you can identify these forward-looking statements by the use of words such as “outlook,” “believe(s),” “expect(s),” “potential,” “continue(s),” “may,” “will,” “should,” “could,” “would,” “seek(s),” “predict(s),” “intend(s),” “trends,” “plan(s),” “estimate(s),” “anticipates,” “projection,” “goal,” “target,” “aspire,” “will likely result,” and or the negative version of these words or other comparable words of a future or forward-looking nature. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. Such factors include, among others: Flutter’s ability to effectively compete in the global entertainment and gaming industries; Flutter’s ability to retain existing customers and to successfully acquire new customers; Flutter’s ability to develop new product offerings; Flutter’s ability to successfully acquire and integrate new businesses; Flutter’s ability to maintain relationships with third-parties; Flutter’s ability to maintain its reputation; public sentiment towards online betting and iGaming generally; the potential impact of general economic conditions, including inflation, rising interest rates and instability in the banking system, on Flutter’s liquidity, operations and personnel; Flutter’s ability to obtain and maintain licenses with gaming authorities; adverse changes to the regulation of online betting and iGaming; the failure of additional jurisdictions to legalize and regulate online betting and iGaming; Flutter’s ability to comply with complex, varied and evolving U.S. and international laws and regulations relating to its business; Flutter’s ability to raise financing in the future; Flutter’s success in retaining or recruiting officers, key employees or directors; litigation and the ability to adequately protect Flutter’s intellectual property rights; the impact of data security breaches or cyber-attacks on Flutter’s systems; and Flutter’s ability to remediate material weaknesses in its internal control over financial reporting. In addition, the ability to achieve estimated cost synergies in the timeframe described in this press release, or at all, is subject to various assumptions, which involve risks and uncertainties. In addition, we may incur additional or unexpected costs to realize these cost synergies. The ability to predict results or actual effects of our plans and strategies is inherently uncertain. Accordingly, actual results may differ materially from those expressed in, or implied by, the forward-looking statements.

Additional factors that could cause the Company’s results to differ materially from those described in the forward-looking statements can be found in Part I, “Item 1A. Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023 as filed with the Securities and Exchange Commission (“SEC”) and other periodic filings with the SEC, which are accessible on the SEC’s website at www.sec.gov. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in the Company’s filings with the SEC. The Company undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Non-GAAP Financial Measures

This presentation contains the financial measures of Adjusted EBITDA, Adjusted EBITDA Margin, Group Ex-US Adjusted EBITDA, Free Cash Flow, Net Debt, Leverage ratio and Adjusted Earnings Per Share and which are not prepared under U.S. GAAP. The Company believes that these non-GAAP financial measures provide users of its financial information with useful information to supplement its financial operating performance in accordance with U.S. GAAP. These measures may not be comparable to similarly titled measures used by other companies, have limitations as analytical tools and should not be considered in isolation, or as a substitute for analysis of the Company’s operating results as reported under U.S. GAAP. Additionally, the Company does not consider its non-GAAP financial measures as superior to, or a substitute for, the equivalent measures calculated and presented in accordance with U.S. GAAP. A reconciliation of Adjusted EBITDA, Ex-US Adjusted EBITDA, Free Cash Flow, Net Debt, Leverage ratio and Adjusted Earnings Per Share to the most directly comparable U.S. GAAP financial measures can be found at the end of this presentation.

Guidance

This is provided (i) on the basis that sports results are in line with our expected margin for the remainder of the year, (ii) at current foreign exchange rates, (iii) on an existing state and province basis in the US and Canada (iii) on the basis of a consistent regulatory and tax framework except where otherwise stated. A reconciliation of our forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measure cannot be provided without unreasonable effort. This is due to the inherent difficulty of accurately forecasting the occurrence and financial impact of the adjusting items necessary for such a reconciliation to be prepared of items that have not yet occurred, are out of our control, or cannot be reasonably predicted.

Market and Industry Data

This presentation includes market and industry data and forecasts that the Company has derived from independent consultant reports, publicly available information, various industry publications, other published industry sources, and its internal data and estimates. Independent consultant reports, industry publications and other published industry sources generally indicate that the information contained therein was obtained from sources believed to be reliable. Although the Company believes that these third-party sources are reliable, it does not guarantee the accuracy or completeness of this information, and the Company has not independently verified this information. The Company’s internal data and estimates are based upon information obtained from trade and business organizations and other contacts in the markets in which the Company operates and management’s understanding of industry conditions. Although the Company believes that such information is reliable, it has not had this information verified by any independent sources.

Factors combine to deliver US TAM 1.5x previous expectations

1. In line with TAM presented at November 2022 Investor Day. 2. Combination of i) higher player values than forecasted at November 2022 Investor Day (date of our prior TAM estimate), and ii) an expectation that these higher player values carry forward into the future. 3. Observed more actives engaging with casino product in live iGaming states than forecasted in 2022.

Management presentation and Q&A

New York, September 25, 2024

Definitions and endnotes

Active customers includes the total number of players who have placed and/or wagered a stake and/or contributed to rake or tournament fees during the applicable period

Average Monthly Players ("AMPs") is defined as the average over the applicable reporting period of the total number of players who have placed and/or wagered a stake and/or contributed to rake or tournament fees during the month. This measure does not include individuals who have only used new player or player retention incentives, and this measure is for online players only and excludes retail player activity. In circumstances where a player uses multiple product categories within one brand, we are generally able to identify that it is the same player who is using multiple product categories and therefore count this player as only one AMP at the Group level while also counting this player as one AMP for each separate product category that the player is using. As a result, the sum of the AMPs presented at the product category level is greater than the total AMPs presented at the Group level. See Part II, "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Key Operational Metrics" of Flutter's Annual Report on Form 10-K for the year ended December 31, 2023 filed with the Securities and Exchange Commission (the "SEC") on March 26, 2024 for additional information regarding how we calculate AMPs data, including a discussion regarding duplication of players that exists in such data.

Average Player Days represent the cumulative number of days any player is active (placed and/or wagered a stake and/or contributed to rake or tournament fees) during a given period. The same player being active on multiple days in the same period would be counted once each day.

Gross revenue margin is defined as sportsbook gross gaming revenue as a percentage of the amount staked. Gross gaming revenue excludes the impact of all player bonusing costs or generosity, and generosity recorded as an offset to revenue. Net revenue margin is after the deduction of all generosity types.

Expected gross revenue margin is defined as forecast gross revenue margin based on the actual betting product and sports mix for a period. Sports results impact represents the difference between our expected gross revenue margin and our actual gross revenue margin.

Regulated and regulating markets excludes countries which, based on Flutter's judgement, are not addressable by Flutter due to the regulatory regime and/or licensing structure in place.

ROW refers to Rest of World and includes the UK, International and Australia segments. ROW does not include unallocated corporate overhead. Unallocated corporate overhead includes shared technology, research and development, sales and marketing, and general and administrative expenses that are not allocated to specific segments.

US market position based on available market share data for states in which FanDuel is active for Q2 2024, unless stated otherwise. Online sports betting and iGaming market shares are the gross gaming revenue (GGR) and net gaming revenue (NGR) market share of our FanDuel brand for the relevant period in the states in which FanDuel was live, based on published gaming regulator reports in those states and external estimates by Eilers and Krejcik for competitor market share. iGaming position and market share based on FanDuel and peer GGR based on published gaming regulator reports and external estimates by Eilers and Krejcik for competitor market share.

ROW market positions reflect company estimates using a variety of methods depending on the data sources available for the relevant market, and include data releases by the relevant regulatory body, market research and aggregated banking deposit information. Italian market position and share based on regulator GGR data from Agenzia delle dogane e dei Monopoli for Q2 2024 unless stated otherwise. UK market position based on full year Regulus data, banking deposit information and competitor filings. Brazil and Australia market share estimated based on Regulus data for 2023 and competitor filings. India market position for Rummy based on H2 Gambling Capital forecasts, Daily Fantasy Sports market research by Redseer, channel checks and internal data.

Payback is calculated in the US as the projected average length of time it takes players to generate sufficient adjusted gross profit to repay the original average cost of acquiring those players. Customer acquisition costs include the marketing and associated promotional spend incurred to acquire a customer. The projected adjusted gross profit is based on predictive models considering inputs such as staking behavior, interaction with promotional offers and gross revenue margin. Projected adjusted gross profit includes associated variable costs of revenue as well as retention generosity costs. Payback for Junglees has been calculated based on net gaming revenue rather than gross profit.
